Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to Applicants' response filed 14 October 2003. The Examiner acknowledges Applicants' response demonstrating that the previous restriction requirement was made in error on canceled claims 1-20. The present office action is a restriction of pending claims 21-52. The previous restriction requirement is withdrawn and the new restriction requirement for claims 21-52 are as follows.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-25, 27-32, 34, 37-38, 43-48, 50 and 52, drawn to method of treating pains associated with muscle disorders of the gastrointestinal, classified in class 424, subclass 247.1.
 - II. Claims 21-26, 38, 42-49 and 52, drawn to method of relieving pains associated with myofacial and Temporomandibular Joint Disorder, classified in class 424, subclass 247.1.
 - III. Claims 21-25, 27, 33, 38, 43-50 and 52, drawn to method of treating pains associated with disorders of the sphincter muscle of the cardiovascular arterioles, classified in class 424, subclass 247.1.
 - IV. Claims 21-25, 27, 35, 38, 43-50 and 52, drawn to method of treating pains associated with disorders of the sphincter muscles of the urinary system, classified in class 424, subclass 247.1.

Art Unit: 1654

- V. Claims 21-25, 27, 36, 38, 43-48, 50 and 52, drawn to method for treating pains associated with disorders of the sphincters of the gall bladder swallowing disorders, classified in class 424, subclass 247.1.
 - VI. Claims 21-25, 38-39 and 43-49, drawn to method of treating thigh pains associated with sports related injuries, classified in class 424, subclass 247.1.
 - VII. Claims 21, 38, 40 and 43-49, drawn to method of treating pain associated with contractures in arthritis, classified in class 424, subclass 247.1.
 - VIII. Claims 21, 38, 41 and 51, drawn to method of treating lower back pains, classified in class 424, subclass 247.1.
2. The inventions are distinct, each from the other because:
3. The methods of Groups I-VIII are directed to different inventions that are not connected in design, operation, and/or effect. These methods are independent since they are not disclosed as capable of use together, they have different modes of operation, they have different functions, and/or they have different effects. One would not have to practice the various methods at the same time to practice just one method alone.

The several inventions above are independent and distinct, each from the other. The search for each of the above inventions is not co-extensive particularly with regard to the literature search. Further, a reference that would anticipate the invention of one group would not necessarily anticipate or even make obvious another group. Finally, the consideration for patentability is different in each case. Thus, it would be an undue burden to examine all of the above inventions in one application.

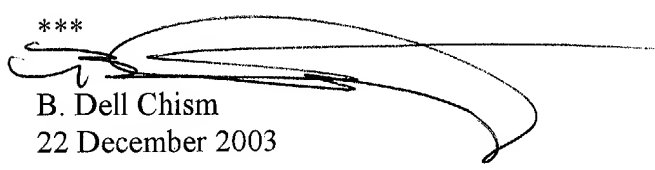

Art Unit: 1654

4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
